Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 20 December 2004.

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

Claims 1 – 5, 7 – 13, 15 – 17 - 19, 22 – 23 and 27 - 29 are rejected under 35 U.S.C. 102(a) as being anticipated by U.S. Patent No. 6,188,757 (Malik).

With respect to claims 1, 9, 17, 22, 27 - 29 Malik teaches the claimed subject matter as can be seen at Abstract, Col. 8, lines 21 – 64, Col. 12, lines 17 – 48, note Col. 25, starting at line 45 and Col. 26, starting at line 27. Also note Figs.

With respect to claims, 2 – 4, 7, 10 - 12, 15, 19 note use of public feature codes (POFC) at Col. 16, line 7 and also note Col. 23, lines 30 – 39 and Figs. 3 and 4

With respect to claim 5, 13, 18, 23 reserving a pool of resources, obviously whether only one service provider or multiple service providers are used a pool of resources are used. If no resources were reserved for temporary use, then the system could not work.

With respect to claim 8, 16 note Col. 18, lines 17 – 31 and Col. 22, line 49.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and

Art Unit: 2642

the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 6, 14 and 20 – 21, 24 – 26 are rejected under 35 U.S.C. 103(a) as being unpatentable over Lawrence et al. and the instant application.

With respect to claims 6 14, 20 – 21 and 24 – 26, Malik. teach the claimed system and method accept for explicitly talking about multiplexing and circuitry therefor. However, it is noted that this is the way things are done. That is, note Fig. 2 of the instant application, again the only thing missing is the multiplexing. If 2 services are on one LIC, are these services not multiplexed onto 122a? Even if one disagrees, the examiner notes that multiplexing is so notoriously old in the art that no reference need be supplied. It would have been obvious to one of ordinary skill in the art to use multiplexing wherever it was deemed necessary. In addition, it is believed by the examiner that multiplexing is inherent in the Malik. device. For example, if a user wanted 2 feature services and one network offered one service and another network service offered another, would the services not be multiplexed? Even if applicant were to argue this point, it would have been obvious to one of ordinary skill in the art to multiplex the 2 services together. Also note multiple services at Col. 27, lines 50 – 62.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 2642

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure: U.S. Patent No. 6,871,232 (Curie et al.), 6,831,972 (Malik), 6,173,049 (Malik), 6,064,666 and U.S. Patent Application Nos. 2004/0249927 (Pezutti), 2004/0010550 (Gopinath), 2002/0032765 (Pezzutti).
